New Advertisements. To the Electors of Vancouver

Island District. ENTLEMEN 1—In response to the solicitation of a number of prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Commons, I have, after insture consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

the honor to solicit your suffrages at the approximate election.

The measures that a member of the House of Commons may be called onto deal with being different from Brose of a member of the local legislature, being in their nature more national, it is doubtiess expected that I as a candidate should advert to at least some of them that more directly concern your interests. I will say, then that having been one of the carliest advocates of a Canadian Transcontinental Railway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire routh-Eastern Coast of the Island from Johnson Straits Straits

Under the Terms of Union with the Pominicu, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suffed to their varied industrial interests, during the next ten years. Should, however, the question come before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district.

agricultural, mining, and commercial laters of your district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast,—and also better mail facilities in each Settlement; and as I-deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Nanafino and Victoria; I shall may on the Federal Government the importance of the early construction of a telegraph line to connect the two principal towns in the Province.

struction of a telegraph line to connect the two principal towns in the Province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more tighthouse. Lishall therefore make the most streaming exertions to induce the Federal Covernment to brill a lighthouse at Nahalino at once, and to creet others elsewhere, as soon as possible, te insure greater safety and certainty in invigating the Gulf.

With respect to the Indian, I will urge that they be ettled on the exercise that they be ettled on the exercise that they have the foreign and the sisting and thus have their social, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo, I deem to be deserving of serious consideration.

profitable, and as the Dominion Government has agree to extend its protection data encouragement to that value able and important branch of industry. I will endeave to secure for your district its full share of any aid that

Victoria, B. C., August 3d, 1871. To the Electors of Yale-Lytton

bistrict.

I shall support any measures brought forward by the local House for the establishment of a Liberal School system throughout the Province and the appropriation of the necessary funds from the general revenue.

I am in favor of the appointment of County Courts have in the Province.

I am in layor of the appointment of County Cour-Judges in this Province.
I'am opposed to the Civil List Act in its present form and should it become matter for legislation at Ottawa I shall advocate its repeal or amendment.
I shall give my support to the boundation Government to long as it continues tairly and homorably to carry out the terms of Union, especially with regard to the con-struction of the Canadian Pacific Railway.
In conclusion I promise that should, you do me the honor of entrusting me with your interests, I shall at all times endeavor to prove myself worthy of your confi-dence.

1 have the bonor to be, Gentlemen
your obedient servant

VANCOUVER ISLAND LISTRICT.

To the Electors of sooks, Lake, Samich, Cowichan, Sait Eveling, Nanalimo and Comox.

CENTLEMEN:—While travelling through your district in July hast, I was the recipient of very great encouragement to offer insect as a Candidate for the Parliament of the Dominion, of which this Province now so happily forms a part.

In soliciting your support at the forthcoming election it becomes my duty to express my siews on Dominional politics, having a direct bearing upon the interests of British Columbia, which I shall do as bridgy as possible. I shall be a staunch supported of the present Government of Canada so long as that Bovernment shall administer the affairs of, this Bouginion in general, and of this Province in particular, in a satisfactory nanner.

Knowing the feasibility of the Canadian Pacific Rall-road from personal observation along the greater part of the probable line of route, and having advocated such an enterprise in my Oursided Journal unblanded in Outsrion well as on this coast for the past twelve years, I shall sondeavor, by every means in my power, to bring that grand undertaking to a successful termination at Equimalt or some other harbor on Vancouver Island.

I may here say that I am not in favor of introducing Coolie labor either of the Rallroad or other public work and will strenuously resistang attempt in that direction. Should the Tariff problem not be solved by the Local Legislature; but a modification of the Canadian Tariff, in so far as spricultural produce is concerned, recomment ded, I shall make every possible effort to secure its adoption by the Y-deral Parliament.

I am fully of the opinion that the Federal Government will place mail communication on a thoroughly efficient footing from Sooke to Comox long before the re-opening of Parliament, shanid this however, not be the case? I shall, if chetted your representative, but to it, that every settlement. These whi soon togete on undeedpied lands, together with men of small capital and in their the House and else

THE DRYNG RANGITUR

this an advantageous opening. 91.141

The Daily Standard. Priday, November 24, 1871. The Mainland "Guardian" to the

with its Lilliputian influence. If it has not power to do much to help the Govof anything except obedience to the will of it employers. It has been "seen," and, hawyer-like, it supports the lawyer's Cabillet: It labore to make the worse appear the better cause, without rhyme or reason, and without the least chance of success. The organ, like the Ministry, is powerless to lead public opinion. It has been galvanized, however, into an ephemeral existence, and will very likely second week in January,—when no doubt it will collapse, or find it more to its interest to laugh at the folly of two practicing barristers pocketing sixteen handred pounds a year to attend to the official business of their respective dethe perquisites of their private practice in the bargain. That the Guardian would take such a change philosophically enough, there can be no doubt; for it lauded protection to the farmers to the skies the Hon. Henry turned his coat, and then it became wonderfully reticents
about its previous utterances on that on YATES TSREET, at his old stand, between Government and Broad, is where they are kept on view and and then it became wonderfully reticent question. Our up-river cotemporary has, however, a happy knack of "running the machine" to suit its owners, and very properly too; for we learn that a certain literary colebrity will be promoted to the bonorable post of "Kite-flyer to the Administration," as soon as the distinguished Chief Commissioner shall have got out of the warming-pan business, and shall have been installed in the new office of Commissioner of Cranberries."

We make any of the Guardian's defence of the new Ministry, in its last number. It first demolishes the Toronto Globe by name, and then, with one dash of its pen, marks its contempt for that nameless lot of journals the whole administration process. of journals the whole administration press of the Dominion. Nothing then was left to compare but "the soi-disant leading newspapers of the Province the STANDARD and Colonist;" and with an extra dose of inspiration from James' Bay, the doughty champion dealt some stunning blows, reminding one of the celebrated prize-fighter St. Andrew's & Caledonian the "Paisley Chicken." Out of politeness we will assume that those journals are demonstred too, —and take a look at its pen pictures of the Ministry. As near as we san make out the latter is perfection. The Premier is dotted down as acgood that hereafter be will be known in the Alma-nack as Saint McCreight. When he'll be an angel we are not told, as the pin-feathers in his wing-frames are but just sprouting. Mr. Robertson is pictured as not article better than his leader,—but, in the sangings of the Guardian and the immortal Chalmers, is "a perfect pink of propriety". But whether it be that there was no space to expatiate on the great moral virtues of the Hon, Chief Commis sioner or not, we don't know; but he and he only is put down as the political Nes-tor of the Dabiact, who was discovered during the Crimean war discussing the Eastern question on the plains of Troy, but by south prestidigitateur has been transmogrified into a gigantic Mentor having one leg on the continent and the other in James' Bay, with outstretched arm and safel mien warning the Main landers to "beware of Island Politicians" Such in a fair paraphrase of the pen-pie-ture-of the new Cabinet, drawn by the Guardam. Now is'nt it gratifying to read in contemporaneous history of such a wonderful political triumvirate, to whom the destiny of our 220,000 square miles of territory is provincially committed? It's brieffely Alliance. But what care the Carpenters' Tools, public for the private virtues of the members of the Cabinet? We certainly hope that British Columbia is not a Sodom. BOOKS, ENGRAVINGS, CTC., If it is, they will save us up to the Ides January, and after that we'll take care of ourselves. In the meantime, we challenge PLUMMER&PAGDEN the Guardian to show where, when, and how of ther St. McCreight or St. Robertson, ever labored an hour, a day, a week, or a year, to serve the people of this Province. We last it to point to the public measure that one or both ever originated, advected or spent a dollar to secure it's success. We demand of it to point out a single claim to public consideration, by right of service that either of them have over any ordinary citizen in the Province. More we defy the Guardian to name a single right that these Sainto-political personages posacss beyond being the tools of Gov. Trutch's caprice, pride, selfishness, and ambition. But they are exemplary moral politicians! Indeed! Let us try, them, by moral science. Some writers say Jones and Brown have a right to oren a borse, but have no moral right to take Robinson's oats to feed that horse without paying for them. Now there are scores of good men from Victoria to Comox, Kootenay, and Cariboo toria to Comox, Kootenay, and Cariboo whe have toiled day by day, and year by year, to secure union of the Provinces, Confederation, and Responsible Government. They have not only toiled, but speat their strength, time, and money; they have passed through the insolent official period of our country, despising the apprecitiousness of their servants who politically were nothing better than the barnecles on a ship's bottom. They—not messes, McCraight, Robertson & Co.—have brought the great measures to perfection in the interest of the people; and now these sainted political 80C—nounders came forward "to reap where they have not sown;" to enjoy the fruits of other men's honest labor; to inspire the Guardian to pour out their mushroom insolence on nien who could not be bought, nor bribed, nor scared from their pat—

Any neglect on the part of our Carriers to deliver the STANDARD at the proper time and place will be promptly remedied on application at the Publication Office, must door to the Bank of British Columbia, Government Street.

The Doily Standard to do so? Where is their moral right to revel in the fruits of other men's labor Where is found their right to fatten off the fruits of the labors of the majority of the Accembly elect, and yet insult them through the Guardian by saying : "We'll Noblys-right nobly—does the Guarmid-witter, if you don't support us."

dian cape to the defence of the Ministry, What is this but adding insult to injury?
What is it but taking the power and then emoluments that belong to others, and then crampet it at least shows a disposition to desta best, and that quite regardless Ministry. Let it begone.

PUBLIC NOTICE.

Esquimalt Graving Dock.

THE GOVERNMENT OF BRITISH Columbia invite tenders to be sent in to the Lands and Works Office, Victoria, up te moon of the 20th day of March, 1872, for the construction of a Graving Dock at Eaguin sit, British Columbia, under the guarantee provided in the twelfth section of the Terms of Union of this Province with the Dominion of Canada, which section is in the following words:

"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the works at the rate of five per cent per annum on such sums not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt."

Equimalt."

The Duck is to be of a clear length of not less than 450 feet, a clear breadth of 90 feet at top and 50 at bottom, and affording a depth of water, at ordinary high tide, of not less than 22 feet on the sill, and to be substantially built upon a site to be selected and provided by the party or parties tendering, subject to the approval of the Government. Parties tendering are required to specify the time within which they propose to complete the Dock.

Parties desirous of tendering, but who may decline to do so under the guarantee above named as insufficient, are invited to tender on the basis of such supplemental guarantee by the Provincial Government or other finances.

The lake is conveyed to Glasgow, a distance of 35 miles. We came to a landing bearing the euphonious name of Crooks, Harrison and Joseph Corocks, Harrison of the extraordinary case of Gray v. Wright, it is evidently a malicious libel on our worthy 't' accommodate a sheep!" On arriving at the lake. The water of the lake is conveyed CAUSIDICUS.

Victoria, 23rd Nov., 1871.

### The Result of the Cariboo Mining Season of 1871.

The Cariboo Sentinel of Nov. 11th devotes stand that no inconsiderable portion of the an article, summing up the results of the past British army is furnished by Sterling and the mining season, and we think it will be found useful and of interest.

"As the claims throughout Cariboo have now been laid over and the so-called close season has commenced, it will not be inopportune to look back and review the result of likely to be accomplished during the summer and our anticipations have been in a great hauste for many years to come. The bydraulie clairs on Valley Mountain, which may also be cokoned as William creek claims, of the ground telow othing yet is known, PERSONAL.—We have had the pleasure of some light upon its value. In the hill a call from Mr. S. F. Crawford, just arrived east of William creek th Forest Rose co. has unproved, the enormous dish of channel having prevented bedrock beie struck up to the present. Antier has not sen bottomed either, but the work being do this winter been much done. On Stout's gul, some oid claims have paid moderately, and he flume has made a good opening into groud which

extent of unworked ground which will be extent of unworked ground which will be overy summer. The road lay for seven opened up when the drain tunnel of the Cala- or the miles by the margin of several lakes, veras co. is completed. On Mosquito creek a few men have been at work all season getting small pay, and some prospecting for quartz on a small scale is being done by two parties. The indications of good quartz in the neighborhood are very favorable, and it is be hoped which such great expectations have been and no damage was sustained by the settlers, during the late storm and high water. It was fixed that the sheep and pigs would have been drowned, but we are glad to learn that such is not the case. The lesson of the inundation will be one to profit by.

Carriero Expanse. —Gerow & Johnson's ing and Gents' Furnishing Goods. Also, ing and Gents' Furnishing Goods. Also, Garmens made to order, according to the Latest Styles.

Туккмочти, Sept. 29th 1871. EDITOR STANDARD:-In my last letter to Annie, a Fort Rupert woman gave in charge Mary, another Fort Rupert squaw, for breaking her window. Discharged the forth gradually narrows and terminates at Queen's Ferry in a funnelshaped manuer, then it opens out again and resembles an inland lake. In this inland water the Channel Fleet safely moors on its visits along the noast. The seenery along this route is of the picturesque kind. On the left bank we passed the comparatively modern THE PRINCE ALFRED. - Reports were curthe entrance to the canal that unites the Forth shipping port-Grangemouth-near which is

It was a border country and although hitherto been enormous, but which, when the Black Bull engine gets to work, will afford profitable employment for years. At the lower portion of the creek also there is a large lower portion of the creek also there is a large

THE CARISDO ROAD, between look's Ferry and Lytton. The mearer wame to Loch Katrine the more it seemed a progress would be stonged be given of its value. Lightning creek, on which such great expectations have been and still are concentrated, has not yet realized the found anticipations of the enterprising prospectors. The South Wales has been there shot did not only claim paying largely, but the excellent prospect obtained by the Victoria co. recently has revived confidence in the richness of the deep channel. Steam power, however, as we have previously maintained, must ultimately be employed before the channel can be worked to proper advantage. In the opposite direction from Williams creek, Gunningham creek has paid well for the limited amount of work done by laydraulite washing. Keithley has not turned out much, nor has Harvey, but the latter is likely before long to pay well. The deep channel has proved extremely difficult to get into and will soon be at work."

DR. CHING PUN-A CARD-EDITOR
STANDARD: Through the medium of your
paper I want to state the very great good that has been
done me by Dr. Ching Fun of this city, nact door Kwong
Lee & Co. For M years I suffered with neuralgia on
the brain, which baffled the skull of three first-class
American physicians. Latterly bronchitis estached my
sight lung, and my ey ber ame awfully inflamed. Drepairing of ever b dags caseff placed myself as a last resort in the hands of Dr. (hing Fun, and after fur months
treatment Fun a well man and feel that I cannot sound
the eminent Chinnes gentleman's praises no londry. Co
that all my countrymen similarly affected may tell
and find relief. Respectably. The DAILY STANDARD, printed and published, Daily by DeCosmos & Long, a. 'heir offee best door to Bank of British Columbia,
